Agro Mulch / Greenhouse / Pond-liner / Geomembrane

## **BoLIDEX®** Agro Mulch / Greenhouse / Pond-Liner / Geomembrane

Anta Tirta Kirana produces agro plastics, BoLIDEX, for various applications such as :

- Mulch
- Greenhouse
- Geomembrane
- Pond-Liner

The increasing imbalance of quality agro products worldwide drives the demand for agro plastics around the world. Our BoLIDEX is designed to meet the growing demand for quality agro plastics.

Our BoLIDEX, in addition, is therefore to enable our bussiness partners to produce optimal productivity and optimum value creations. Our bussiness can be assured of it.

\* Colors, UV-absorbers and special grades are obtainable upon request

### • Agro Mulch

Our agro mulch is equipped with UV absorbers and stabilizers. It is to help extend the polyethylene-based agricultural mulch film to endure from high UV radiation and agricultural chemicals.

Agro mulch

### • Greenhouse

This film is used to build your agro greenhouse. There are some plants that require full sun, less sun, lots of water or a very little bit of water. Our greenhouse can meet various plants' conditions and requirements.

Greenhouse

### • Geomembrane & Pond-Liner

Our geomembrane and pond-liner are made by multi-layer and tough polyethylene materials. They can withstand against high acid and waste chemicals. Our geomembrane and pond-liner are suitable for irrigations, sanitations. UV light resistant geomembrane and pond-liner are also available in our products portfolio.
